How to find us:

BADERLOO - 128 Baderloo Road, Spalding.

Baderloo are proud to offer 160 rams in our third on-property Poll Merino Ram Sale.

The 2022 Baderloo Auction showcases a highly profitable, modern merino with elite fibre from start to finish. With 21 years of full pedigree breeding values, buyers can be confident they will be investing in industry leading genetics.

We have continued to develop the most profitable genetic traits of our flock, without any detrimental effects on the rest of our breeding program. Numerous sires have been used and measured in flocks throughout Australia, creating good linkage and increasing accuracy, predictability and repeatability.

Fibre quality and quantity continues to progress rapidly as superior quality sires are carefully selected and joined correctly. Our understanding of fibre production allows us to replicate correct skin and fibre structure that is not susceptible to complications such as fleece rot and body strike. This allows our genetics to perform in a wide range of environments from low rainfall pastoral to high rainfall environments up to 40".

The correct skins, together with right carcass, has allowed our flock to become highly fertile in their natural environment. We measure this using Number of Lambs Weaned (NLW), enabling us to capture the full genetic potential of individual animals to increase fertility and lambing percentages further, clearly the most significant profit driver. Baderloo are leading supplier of yemd, yfat and nlw in South Australia.

We are very excited to welcome our existing clients for another ram selling season, and equally pleased to allow new clients to have a taste of the success. Come and see the exceptional line up from start to finish in our new facilities.

*Daniel &
Mel Hammat*
